Description of Waste Reduction Efforts During Odd-Numbered Reporting Calendar Year:	CMC Steel AZ exports this material to Zinc Nacional for the sole purpose of reclamation of Zinc Material contained therein. Its contracts require a minimum of 20% Zinc, approximately the same concentration of zinc in virgin ore. Zinc Nacional recovers the metal for use in pigments, medicine, and other commercial metal and industrial uses. The residues from the processing are non-hazardous. Therefore, after reclamation by Zinc Nacional the hazardous waste volume is reduced to zero and the toxicity of all solid waste by-products are zero.
